Test Script:

Method	#	Test Description	Sample Input	Expected Output	Actual Output	P/F
valid_choice	1	Valid input (0 to 6)	Input 2	Returns 2	Returns 2	P
	2	Invalid input	Input 7	Displays “Invalid choice! Please enter a number between 0 and 6.”	Displays “Invalid choice! Please enter a number between 0 and 6.”	P
	3	Non-numerical input	Input “hi”	Displays “Invalid choice! Please enter a number between 0 and 6.”	Displays “Invalid choice! Please enter a number between 0 and 6.”	P
name	1	Valid name input	Input “Itadakimasu”	Returns true	Returns true	P
	2	Invalid name input	Input 0	Returns false	Returns false	P
	3	Empty input	Input enter	Returns false	Returns false	P
choice	1	Valid character	Input y	Returns true	Returns true	P
	2	Valid character with added characters	Input y0	Returns false	Returns false	P
	3	Invalid character	Input 67	Returns false	Returns false	P
money	1	Valid double	Input 67.00	Returns 67	Returns 67	P
	2	Negative double	Input -87	Displays “Please enter an amount greater than 0.”	Displays “Please enter an amount greater than 0.”	P

	3	Invalid double with characters	Input “R2-D2”	Displays “Please enter a valid amount!(double only)”	Displays “Please enter a valid amount!(double only)”	P
register_name	1	Valid name input	Input “Roonil Wazlib”	Displays “Account name registered!”	Displays “Account name registered!”	P
	2	Name input with characters	Input “The Bite of 87”	Displays “Please enter a valid name!”	Displays “Please enter a valid name!”	P
	3	Empty input	Input enter	Displays “Please enter a valid name!”	Displays “Please enter a valid name!”	P
deposit_amount	1	Valid deposit amount(float)	Input Currency: USD Deposit Amount:	Displays “Deposit Amount: 3100.00 Updated Balance: 4100.00”	Displays “Deposit Amount: 3100.00 Updated Balance: 4100.00”	P
	2	Invalid deposit amount(less than 0)	Input Deposit Amount: -67	Displays “Please enter an amount greater than 0.”	Displays “Please enter an amount greater than 0.”	P
	3	Invalid deposit(non-numerical input)	Input Deposit Amount: “Hollow Purple”	Displays “Please enter a valid amount!(double only)	Displays “Please enter a valid amount!(double only)	P
withdraw_amount	1	Valid withdraw amount	Input Currency: USD Withdraw Amount: 1	Withdraw Amount: 62.00 Updated Balance: 938.00	Withdraw Amount: 62.00 Updated Balance: 938.00	P

	2	Withdraw more than current balance	Input Currency: USD Withdraw Amount: 50	Displays “Amount exceeds balance!”	Displays “Amount exceeds balance!”	P
	3	Withdraw amount less than 0	Input -12	Displays “Please enter an amount greater than 0.”	Displays “Please enter an amount greater than 0.”	P
exchange_rate	1	Valid input	Input 54	Displays “Exchange rate updated successfully to 54.00!”	Displays “Exchange rate updated successfully to 54.00!”	P
	2	Input is less than 0	Input -5	Displays “Exchange rate must be greater than 0.”	Displays “Exchange rate must be greater than 0.”	P
	3	Input is non-numerical	Input “Rasengan”	Displays “Please enter a valid amount!(Numbers only)	Displays “Please enter a valid amount!(Numbers only)	P
currency_exchange	1	Exchange between recorded rates	Recorded Rates: USD: 30 JPY: 45 Input: 100	Displays “Exchange Amount: 66.67”	Displays “Exchange Amount: 66.67”	P
	2	Exchange between recorded and unrecorded rate	Recorded Rate: USD:30 Unrecorded rate: PHP Input: 100	Displays “Exchange Amount: 3.33”	Displays “Exchange Amount: 3.33”	P

	3	Input invalid (less than 0)	Input -57	Displays “Please enter an amount greater than 0!”	Displays “Please enter an amount greater than 0!”	
interest_amount	1	Display 5 days of expected daily interest	Account Name: William Afton Current Balance: 80 Input 5	Row of balance increase by 0.01 per day	Row of balance increase by 0.01 per day	P
	2	Display 2 days of expected daily interest	Account Name: William Afton Current Balance: 1000 Input 2	Row of balance increase by 0.14 per day	Row of balance increase by 0.14 per day	P
	3	Display 0 days of expected daily interest	Input 0	Displays “Days must be greater than 0!”	Displays “Days must be greater than 0!”	P
